GUANGZHOU XINGHONGDE ELECTRONICS TECHNOLOGY CO., LTD.

GUANGZHOU XINGHONGDE ELECTRONICS TECHNOLOGY CO., LTD.

Guangzhou Xinghongde Electronics Technology Co., Ltd (Brand: RH-AUDIO) develops, manufactures, and markets highly reliable sound products of Commercial Sound System.

RH-AUDIO was incorporated in the year 2006 and began his business of manufacturing commercial PA sound system, providing applications of sound reproduction/reinforcement for a variety of venues such as conference halls, shopping malls, school auditoriums, churches, commercial buildings, industrial sites, gardens, or an entire outdoor complex, etc.

On the way from beginning to now, we did not stop to be committed to serving our customers and providing them with more service in the business, thanks to the in-depth experience accumulated in the past time, and based on newly most advanced technology, we strive to keep the concept allowing you to truly enjoy a superb experience of technological revolution.

From the start, RH-AUDIO has striven to push the technology development, we do so by developing and manufacturing our products for markets looking for the most bang-for-the-buck, please take a moment to look over our entire product line, get involved with our innovation and share in the excitement.

Quality statement

RH-AUDIO is committed to supply the customers with innovative products and services that conform to their requirements, our objective is always to meet or exceed their expectations. RH-AUDIO is ISO9001 registered, we are committed to effective Quality Management at every level within the business.

As we believe that this is critical to the success of our customers and products, the key elements of this strategy are:

- A strong management commitment to quality.
- Recruitment and retention of high calibre, experienced, well trained staff.
- Appropriate documented processes, procedures and controls.
- An ethos of continual improvement and challenge.
- Meeting all necessary legal and regulatory requirements.

Our mission statement

- Honesty and respect with our customers.
- Efficiency and austerity in the use of our resources.
- Creativity in the development of methods and ideas.
- Working in team to achieve the best working environment.
- Pledge of allegiance and solidarity with us and the environment.

Service statement:

RH-AUDIO takes "customer-oriented" as our guiding philosophy. We will treat everyone we encounter as we wish to be treated, with integrity and respect. We work closely with our customers all over the world to impress our customers with the quality and timeliness of our services in a pleasant and friendly manner.

We know sometimes you have very detailed and unique requirements, we'll gladly work with you to develop specific solutions.

The RH-AUDIO PA System over IP refers to PA paging and intercom systems that use an IP network instead of a centralized amplifier to distribute the audio signal to paging locations across a building or campus, or anywhere else in the reach of the IP network. Network-attached amplifiers and intercom units are used to provide the communication function. At the transmission end, a computer application transmits a digital audio stream via the local area network, using audio from the computer's sound card inputs or from stored audio recordings. At the receiving end, either specialized intercom modules (sometimes known as IP speakers or terminals) receive these network transmissions and reproduce the analog audio signal. These are small specialized network appliances addressable by an IP address just like any other computer on the network.

Such systems are inter-connected by the networking infrastructure and thus allow loss-less transmission to remote locations across the Internet or a local area or campus network. It is also possible to provide for multiple or relocatable transmission control stations on such a network.

The features and benefits are:

- ※ Dynamic grouping of zones, with no fixed limit on the number of pre-defined groups or the number of members within the group.
- ※ Public address controllers can connect standard Public Address amplifiers to the IP communication system.
- ※ High quality digital background music (BGM) support for in-house music distribution.
- ※ Special software application provides customisable floor plan or schematic views on a touch screen PC workstation.
- ※ Provides a digital message store, playback and recording of announcements with no no fixed limits on duration or capacity.
- ※ The IP microphone provides flexible options of paging/announcement to every single zone, or group of zones, or all zones.
- ※ Each output has adjustable and independent volume and tone controls for each output pre-set through the software for daily

Descriptions & Features

The RH-AUDIO IP Based PA System offers an ideal solution for some venues that need to do large-scale paging and multi-zoned background music across multiple facilities and locations with complex distribution and scheduling needs.

It's easier than ever to install a very wide paging or intercom system using your existing Ethernet network. It can be used to provide emergency notification to the zones or specific messages to each zone.

The network terminal such as network amplifier, network speaker, network preamplifier can be placed wherever you have a network drop without need for long speaker wire connections from a large central amplifier.

With IP network system you will enjoy a quicker and more flexible installation than traditional wired analog systems.

- ※ The software runs on the main server, manages the system and provides digital voice quality sound wherever you need it.
- ※ The central server is the core of IP network PA system.
- ※ With big capacity of program storage, upload and process program from many audio sources.
- ※ Managing program library and supply program for network terminals and achieve timing playing and real-time program ordering, response to request from network terminals.
- ※ No restriction to transmission distance and tens of or hundreds of audio sources.
- ※ Any workstation installed with this system can broadcast to the terminals, and can edit program as per the user-right authorized.

Rear Panel

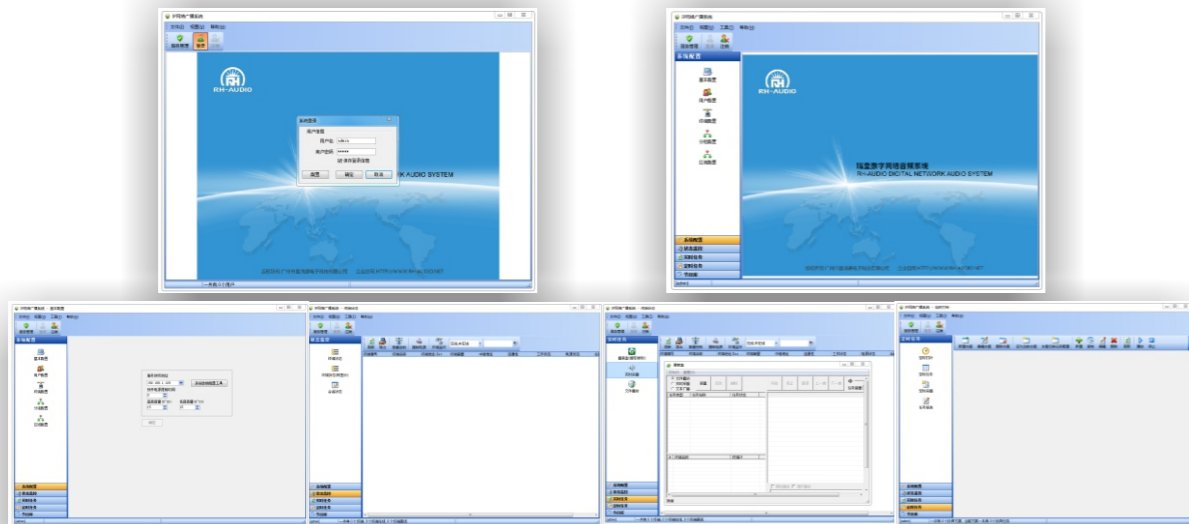

Specifications

- ※ Model: RH8100
- ※ CPU: Intel Core I3
- ※ Chipset: Intel B75
- ※ Operating System: Windows 7
- ※ Display: 17.3" high-resolution LCD screen (1920 * 1080), touch screen
- ※ RAM: DDR31333/1600MHz (B75/H81)
DDR42133/1866MHz (H110)
- ※ Memory: 128G SSD
- ※ GPU: Intel® HD Graphics
- ※ I/O Interface: DVI*1, Realtek*2, RS-232*5, VGA*1, PS/2*2, USB2.0*2, USB3.0*4
Line-in*1, Line-out*1, Mic.*1
- ※ Power Supply: AC100~240V 50/60 Hz
- ※ Working Condition: Temperature -10°C~50°C, relative humidity 10%~95%
- ※ Installation Method: Desktop or rack mounting
- ※ Production Size: 484mm(W)*362mm(H)*303mm(D)
- ※ Weight: 18.40KG

RH8000

IP PA System Software

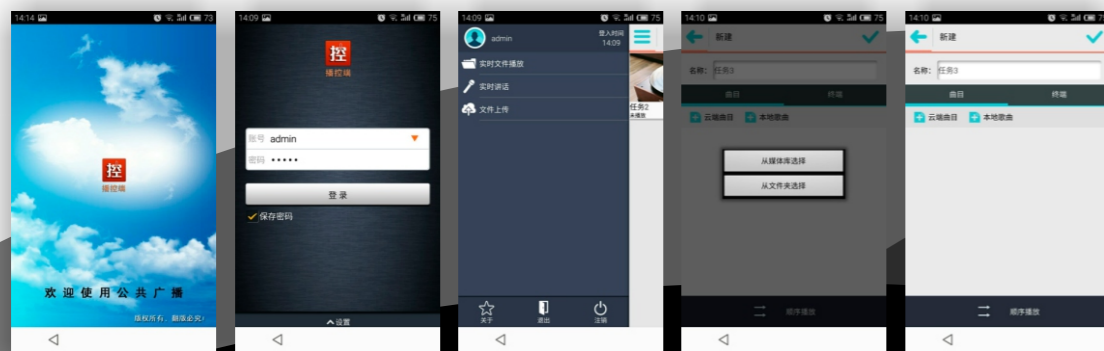

To be installed with prepared computer as server to manage the whole pa system.
Supports operation system of Windows.

RH8001

Android Mobile APP

With this APP user can send on-demand request to central server and play programs to IP terminals.
Can send voice message to IP terminals, even upload audio source from mobile devices.

RH8300

Descriptions & Features

The **IP Microphone RH8300** is the core control equipment for IP public address system, could make voice announcement to individual zone, combined zones and all zones under the system.

Built-in loudspeaker, could realize the function of two way intercom among IP based microphones.

Very easy for deployment, anywhere has internet then could access in, normally installed in control center or leaders office.

Desktop microphone designed with LCD screen, and number push-keys, can play the requested files on the server.

Suitable for organizations with complex inter-building distribution and scheduling needs such as government agencies, schools, factories, commercial buildings, residential areas and hospitals etc.

- ※ Internet interface: standard RJ45
- ※ Power: DC12V with AC power adapter
- ※ MIC input sensitivity: 10mVrms
- ※ Auxiliary line input level: 400mV industry standard wire terminals
- ※ Built-in speakers & power output impedance: 8Ω/5W
- ※ The audio bitrate: 8Kbps ~ 320Kbps self-adaption
- ※ Frequency response: 20Hz ~ 18KHz (±3dB)
- ※ SNR: ≥80dB
- ※ Sampling frequency: 8K ~ 48KHz
- ※ THD: ≤1%
- ※ Transmission speed: 10/100Mbps
- ※ Support protocol: ARP、UDP、TCP/IP、ICMP、IGMP(multicast)
- ※ Network delay: ≤50ms
- ※ Dimension: 200×145×49mm
- ※ Gooseneck length: 410mm
- ※ Weight: 2.2Kg

Rear Panel

RH8310

Descriptions & Features

The **IP Microphone RH8310** is the core control equipment for IP public address system, could make voice announcement to individual zone, combined zones and all zones under the system.

Built-in USB player for playing music to individual zone, combined zones and all zones under the system.

Built-in loudspeaker, could realize the function of two way intercom among IP based microphones.

Desktop microphone design, 7 inch TFT LCD touch screen, humanized operation interface.

Suitable for organizations with complex inter-building distribution and scheduling needs such as government agencies, schools, factories, commercial buildings, residential areas and hospitals etc.

- ※ Internet interface: standard RJ45
- ※ Power: DC12V with power adapter
- ※ Audio bit rate: 8Kbps ~ 320KbpsSelf- adaption
- ※ Frequency response: 40Hz ~ 20KHz (±3dB)
- ※ (THD@1W): ≤1%
- ※ SNR: >80dB
- ※ Sampling rate: 8K ~ 48KHz
- ※ Line in input level: 400mV (Standard 3.5mm Audio port)
- ※ Line out output level: 0.775V (Standard 3.5mm Audio port)
- ※ Built in speaker: 8Ω/5W
- ※ Audio format: MP3, ADPCM
- ※ Transmission speed: 10/100Mbps
- ※ Support protocol: ARP、UDP、TCP/IP、ICMP、IGMP(Group play)
- ※ Internet delay: ≤50ms
- ※ Base dimension: 240*150*56mm
- ※ Gooseneck length: 410mm
- ※ Weight: 1.45KG

Rear Panel

RH2019

Descriptions & Features

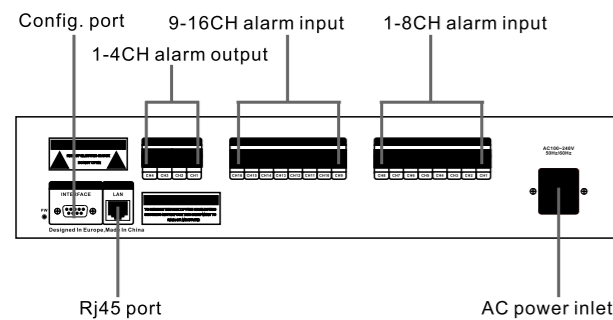

The IP Alarm Interface RH2019 deals with the incoming fire alarm signal from other detection equipments then sends them out to central server for emergency declaration through the loudspeakers over the IP pa system.

- ※ Rack installing design with 2U height.
- ※ Standard Rj45 network port.
- ※ 16 inputs for fire alarm signals.
- ※ 16 LED meters for indicating alarm status.
- ※ 4 channels of alarm outputs.

Specifications

- ※ Power supply: AC220V ± 10% 50-60Hz.
- ※ Stand by power consumption ≤1W.
- ※ Alarm input: 16 channels.
- ※ Alarm output: 4 channels.
- ※ Support protocols: UDP, TCP/IP, IGMP.
- ※ Audio bit rate: 8Kbps~320Kbps
- ※ Sampling rate: 8K~48KHz
- ※ Audio format: MP3
- ※ Transmission rate: 10/100Mbps.
- ※ Net delay: ≤50ms
- ※ Working environment temperature: 5°C ~ 40°C.
- ※ Working environment humidity: 20% ~ 80%.
- ※ Dimension: 485 x 365 x 89 mm .
- ※ Weight: 6.5 Kg.

Rear Panel

RH603PE

Descriptions & Features

The IP Network PoE Ceiling Speaker RH603PE is powered by PoE+network switch through CAT5 or CAT6 connection - no external power supply is required.

Built-in Class D amplifier provides effective use of power, the system outputs rated power 8W when use the Power Over Ethernet. An additional inlet is ready to connect separate DC24V(2A) power source, which will make the system output rated power 30W.

The speaker unit in the system is of the coaxial type with an 6.5" woofer of polypropylene, an inverted rubber surround, and a 1" polyamide soft dome tweeter mounted on a post, these two drivers are coupled through a built-in capacitor bypass crossover.

This speaker system has excellent dispersion, wide bandwidth and a smooth frequency response which makes this the top choice for voice paging, playing music, emergency notification, and other scheduling applications.

Specifications

- ※ Amplifier Type: Class D
- ※ Power Supply: PoE or DC24V(2A)
- ※ Rated Power : Power Over Ethernet: 8W
DC24V(2A): 30W
- ※ LAN Connector: Rj45
- ※ DC12V Connector: Phoenix connector
- ※ Transmission Speed: 10/100Mbps
- ※ Communication Protocol: TCP/IP, UDP, IGMP
- ※ Sampling Rate: 8K~48K
- ※ Audio Bit Rate: 8K~512Kbps
- ※ Speaker Driver: 6.5" woofer + 1" tweeter
- ※ Sensitivity(1m, 1w)
- ※ Frequency
- ※ Dimension

RH5010

2*30W

Descriptions

The IP Based Speaker RH5010 consists of one main active speaker & one sub passive speaker, the main active speaker "L" with built-in 2-channel "L&R" stereo amplifiers 30W*2, with Phoenix connector ready to be connected to the sub passive speaker "R".

With this IP based speaker you will enjoy a quicker and more flexible installation than traditional wired analog systems. It's easier than ever to install a very wide paging or intercom system using your existing Ethernet network, this speaker can be placed wherever you have a network drop without need for long speaker wire connections from a large central amplifier.

The IP based speaker offers an ideal solution for some venues that need to do large-scale paging and multi-zoned background music across multiple facilities and locations with complex distribution and scheduling needs such as government agencies, schools, factories, commercial buildings, residential areas and hospitals etc.

Features

- ※ Built-in Power Saving Circuitry.
- ※ Integrated network decoding module with IP address.
- ※ IP address reset function.
- ※ Supports network volume.
- ※ Built-in 2-channel digital stereo amplifier (Class D) 8Ω 30W*2.
- ※ 2-way speaker units with woofer 5" + tweeter 1".
- ※ With one 6.35mm MIC jack input.
- ※ Unbalanced local audio input via RCA connectors.
- ※ Individual volume control for audio input & microphone input.
- ※ 70V/100V line voltage signal input available.
- ※ "U" shaped adjustable mounting bracket is supplied.
- ※ Compact size (HxWxD) 242 x 182 x 162 mm.
- ※ Net weight: active speaker 2.50 kg, sub passive speaker 2.15 kg.
- ※ White & Black color available.

Rear Panel

Specifications

- ※ Network Input: Standard RJ45 x 1
- ※ Protocol Supported: TCP/IP UDP IGMP (group broadcasting)
- ※ Rated Power: 30W x 2 (8Ω)
- ※ Audio Format: MP3/MP2
- ※ Sampling Rate: 8K-48KHz
- ※ Transmit Speed: 10Mbps
- ※ Format: 16 digit stereo CD tone
- ※ Output: 20Hz~16KHz

- ※ S.N>70dB
- ※ Working Temperature: 5°C ~40°C
- ※ Working Humidity: 20%~80%RH, condensation
- ※ Power Saving Mode: Automatically switched on or off
- ※ Power Consumption: ≤50
- ※ Power Supply: ~110-240V 50-60Hz
- ※ Dimension(HxWxD): 242 x 182 x 162 mm
- ※ Net Weight: Active speaker 2.50 kg + Passive speaker 2.15 kg

RH6030 (30W) RH6060 (60W)

Descriptions

The Full-weather IP Column Speaker Series which produce good clear sound and acoustical clarity for background music and paging,are suitable for indoor and outdoor applications such as stations,gardens, swimming pools,stadiums,and tennis courts,etc.

Even in extreme weather conditions, the all metal extruded aluminum alloy enclosure with cast aluminium top and bottom plates are fully dust and weatherproof,IP65 rated.

Easy and secure wall mount installation in outdoor area through the supplied strong metal mounting brackets.

Bottom Panel

Features

- ※ Built-in D type digital amplifier.
- ※ Two way system with separate woofer and tweeter.
- ※ All metal extruded aluminum alloy enclosure with cast aluminium top and bottom plates are fully dust free and waterproof IP65 rated, suitable for in/outdoor use.
- ※ Standard Rj45 network port.
- ※ Support protocols of UDP,TCP/IP,IGMP.
- ※ Easy and secure installation through the supplied strong metal mounting brackets.
- ※ Are suitable varied applications such as stations,gardens, swimming pools,stadiums,and tennis courts,etc.

Specifications

RH6030 (30W)

- ※ Network port: standard Rj45.
- ※ Support protocols:UDP,TCP/IP,IGMP.
- ※ Audio format: MP3/MP2.
- ※ Sampling rate: 8K-48KHz.
- ※ Transmission rate: 100Mbps.
- ※ Audio quality: 16 digit,CD grade timbre .
- ※ Frequency response: 80Hz~16KHz.
- ※ T.H.D:≤1%.
- ※ S/N:>70dB .
- ※ Woofer unit: 6.5" x1.
- ※ Tweeter unit:1.5"x1
- ※ Power consumption:≤36W.

RH6060 (60W)

- ※ Network port: standard Rj45.
- ※ Support protocols:UDP,TCP/IP,IGMP.
- ※ Audio format: MP3/MP2.
- ※ Sampling rate: 8K-48KHz.
- ※ Transmission rate: 100Mbps.
- ※ Audio quality: 16 digit,CD grade timbre.
- ※ Frequency response: 80Hz~16KHz.
- ※ T.H.D:≤1%.
- ※ S/N: >70dB

RH2033

Features

- ※ Rack installing design with 2U height.
- ※ SMT circuit boards with highly stable performance.
- ※ Standard Rj45 network port.
- ※ Two controlled power outputs,power handling capacity 660W.
- ※ Support protocols of UDP,TCP/IP,IGMP.
- ※ 3 local Aux inputs,1 EMC. input and 5 MIC. inputs.
- ※ 2 line output for connecting conventional power amplifiers.
- ※ Individual volume controller for inputs.
- ※ BASS and TREBLE tone controller.
- ※ With one serial port for configuration with computer.
- ※ Widely used for any kind of public areas with complex inter-building distribution and scheduling needs such as airports, ports,universities, schools, large gathering sites, stadiums,industrial parks, parks, railways,highways, etc.

Specifications

- ※ Network port: standard Rj45.
- ※ Support protocols:UDP,TCP/IP,IGMP.
- ※ Sampling rate: 8K-48KHz.
- ※ Transmission rate: 100Mbps.
- ※ Line input sensitivity: 470MV, RCA connections.
- ※ EMC input: 470MV, RCA connections.
- ※ MIC input: 5-10MV, 6.5 jack.
- ※ Audio output level: 775MV,RCA connections.
- ※ Audio output impedance: 470 Ω .
- ※ Frequency response: 20Hz~20KHz.
- ※ T.H.D:≤0.3%.
- ※ S/N: >70dB.
- ※ Working environment temperature:5°C ~ 40.
- ※ Working environment humidity:20% ~ 80%.
- ※ Power consumption: ≤36W.
- ※ Power supply:AC220V ± 10% 50-60Hz.
- ※ Dimensions: 485 x 365 x 89 mm .

RH2055

Features

- ※ Rack installing design with 2U height.
- ※ SMT circuit boards with highly stable performance.
- ※ 3.5 inch LCD screen with remote control.
- ※ Standard Rj45 network port.
- ※ Two controlled power outputs, power handling capacity 660W.
- ※ Support protocols of UDP, TCP/IP, IGMP.
- ※ 2 local line inputs, 1 EMC. input and 1 MIC. input, MIC input overrides other inputs.
- ※ 1 line output for connecting conventional power amplifiers.
- ※ Individual volume controller for inputs, and MASTER volume controller.
- ※ BASS and TREBLE tone controller.
- ※ With one serial port for configuration with computer.
- ※ Widely used for any kind of public areas with complex inter-building distribution and scheduling needs such as airports, ports, universities, schools, large gathering sites, stadiums, industrial parks, parks, railways, highways, etc.

Specifications

- ※ Network port: standard Rj45.
- ※ Support protocols: UDP, TCP/IP, IGMP.
- ※ Audio format: MP3/MP2.
- ※ Sampling rate: 8K-48KHz.
- ※ Transmission rate: 100Mbps.
- ※ Line input sensitivity: 470mV, RCA connections.
- ※ EMC input: 470mV, RCA connections.
- ※ MIC input: 5-10mV, 6.5 jack.
- ※ Audio output level: 775mV, RCA connections.
- ※ Audio output level: 775mV, RCA connections.
- ※ Audio output impedance: 470 Ω.
- ※ Frequency response: 20Hz~20KHz.
- ※ T.H.D: ≤0.3%.
- ※ S/N: >70dB.
- ※ Working environment temperature: 5°C ~ 40.
- ※ Working environment humidity: 20% ~ 80.
- ※ Power consumption: <3W.
- ※ Power supply: AC220V ± 10% 50-60Hz.
- ※ Dimension: 485x365x89mm.
- ※ Weight: 3.68kg | 14.08kg | 15.58kg | 21.50kg.

RH2070N/RH2130N/RH2260N/RH2360N/RH2500N/RH2650N

Descriptions & Features

The IP Network Amplifiers offer an ideal solution for some venues that need to do large-scale paging and multi-zoned background music across multiple facilities and locations with complex distribution and scheduling needs. It's easier than ever to install a very wide paging or intercom system using your existing Ethernet network. The IP based amplifier can be placed wherever you have a network drop without need for long speaker wire connections from a large central amplifier. With IP based amplifier you will enjoy a quicker and more flexible installation than traditional wired analog systems.

- ※ Rack installing design with 2U alloy panel.
- ※ Embedded computer technology and DSP audio processing technology.
- ※ 70V/100V voltage and 4-16 Ohm output.
- ※ 3 MIC. inputs and 2 LINE inputs.
- ※ Individual volume controller inputs.
- ※ BASS and TREBLE tone controller.
- ※ MIC1 overrides other inputs with 0~30dB dB attenuation.
- ※ 5 LED indicators for working status.
- ※ 1 AUX output for additional amplifier.
- ※ Supports protocols of TCP/IP, UDP, IGMP.
- ※ Hifi audio balance ensure that the reduction of audio signal decoding has CD grade timbre.
- ※ Can supply 24VDC power to switch on the remote volume control in the case of emergency.

- ※ Rated power **60W/120W/240W/350W/500W/650W** available.
- ※ With one serial port for configuration.
- ※ Supports network APP and network remote control.
- ※ Supports local microphone and audio source inputs.
- ※ Special power control system, standby power less than 3W.
- ※ Highly stable performance circuit board integrated with protection circuits for output short circuit for output short circuit, overload, high temperature, and peak current limiters with a red indicator for warning on the front panel.
- ※ Powerful TOSHIBA amplifier transistors.
- ※ 100% pure copper toroidal transformers to ensure highly stable performance and long service life of the amplifier.
- ※ High quality heat sink ensures to efficiently remove heat from the transistors and dissipate it into the surrounding air.
- ※ Integrated with temperature detectors for cooling fan and protection circuit.

Multi-Zone Public Address System (System can be expanded up to 64 zones)

Analog Public Address System

RH2816S

The multi-zone pa sound system mainly include background music, remote paging system, voice evacuation system. Applicable for offices, hospitals, schools, shopping malls, commercial buildings etc.

- ※ **Background Music:** CD/MP3/FM/AM audio source are available.
- ※ **Remote Paging Microphone:** The remote paging microphone uses CAT6 cable connection, communication distance up to 1kms. The spokesman can speech to individual zone, combined zones and all zones at the paging station.
- ※ **Voice Evacuation System:** The PA system contacts inputs from fire center or smoke detector to activate the built-in pre-recorded voice message. And the emergency alarm system with highest priority to override paging and background music, it will broadcast the pre-recorded voice alarm message to all zones.
- ※ **Weekly Schedule Management:** The system can be programmed to play pre-set schedules pre-set via PC software. The schedules can be played at any time.

Description & Features

The 32CH Audio Matrix RH2816S offers an easy operation of collecting different music programme from different audio sources, and can play a same audio to all the speaker zones, also can play different audio to different speaker zone, and easily achieve zone paging function working with its corresponding remote paging microphone RH2816RS.

- ※ Connects 6 different audio source devices.
- ※ Connects 32 different amplifiers.
- ※ 16 alarm signal inputs.
- ※ Built-in Fm tuner, built-in Mp3 player with USB/SD port.
- ※ Colorful 4.3inch TFT display.
- ※ Several paging modes (all zones, combined zones, or individual zone) could be achieved through this paging console RH2816RS.

Audio Input	6 inputs of audio source
CUT Input	10K ohms(Ω)330mV, unbalanced
Line Output Level	LINE:10K ohms(Ω)0.775V(0dB), unbalanced
Alarm Activation Input	(0V)Shortcut signal ALARM IN:CH1~CH16
EMC1 Input	10k ohms(Ω) 330mV ,unbalanced
Power Supply	AC220V ± 10% 50-60Hz
Net Weight	6.80kg

RH2816RS

Descriptions & Features

The 32-Zone Remote Paging Microphone RH2816RS works together with the Audio Matrix RH2816S, it is easily operated by pressing the zone selector buttons on the panel to access the corresponding zone of the paging selector to achieve remote paging to every zone.

- ※ Paging modes: individual zone, combined zones and all zones.
- ※ Working with audio matrix RH2816S for paging function.
- ※ Connected by CAT cable with distance up to 1kms.
- ※ Built-in Mp3 player with SD and USB ports.
- ※ Built-in chime, with mute function.
- ※ With volume control.

MIC. Input	MIC:600 ohms(Ω)5mV,unbalanced
Line Output	LINE:10K ohms(Ω)0.775V(0dB),unbalanced
THD	<0.01% at 1kHz
Zones Controlled	"1 ~ 32"
Power Cable	(2× 0.5 mm ²)×1.5m
Power Consumption	5~10W
Packing Size	180(H)×350(W)×300(D)
G.W	2.88kg

RH2810R/RH2816RT

Descriptions & Features

The 10-Zone/16-Zone Remote Paging Microphone works together with the 10 Zone(RH2810P)/16 Zone(RH2816PT) Paging Selector, it is easily operated by pressing the zone selector buttons on the panel to access the corresponding zone of the paging selector to achieve remote paging to every zone.

- ※ Paging modes: individual zone, combined zones and all zones.
- ※ RH2810R works with page selector RH2810P.
- ※ RH2816RT works with page selector RH2816PT.
- ※ Connected by CAT cable with distance up to 1kms.
- ※ Built-in chime, with mute function.
- ※ With one line input for connecting additional audio source.

Rear Panel

MIC. Input	MIC:600 ohms(Ω)5mV,unbalanced
Line Output	LINE:10K ohms(Ω)0.775V(0dB),unbalanced
THD	<0.01% at 1kHz
Zones Controlled	RH2810R "1~10", RH2816RT "1~16"
Power Cable	(2× 0.5 mm ²)×1.5m
Power Consumption	5~10W
Packing Size	180(H)×350(W)×300(D)
G.W	2.88kg

RH2810P

Descriptions & Features

The 10-Zone Paging Selector is able to select up to 10 paging zones, it has a direct microphone input, two remote microphone inputs, two line inputs, internal chime and priority channel mute, can be operated by selecting the zones using the selector pushbuttons, can also be operated remotely using the 10-zone microphone console.

- ※ 10 zone paging selection.
- ※ 10 zone alarm function.
- ※ Volume control.
- ※ Built-in chime, with mute function.
- ※ Each paging zone has LED status indicator.
- ※ One 6.35mm MIC input jack, four remote MIC inputs, one line input, one EMC input.
- ※ 15-pin computer activation bus, and low level alarm activation.

MIC. Input	MIC:600 ohms(Ω)5mV,unbalanced
Line Output	10K ohms(Ω)0.775V(0dB)-Unbalanced
THD	<0.01% at 1kHz
Alarm Activation Input	"ALARM IN (CH1~CH10)"
Alarm Activation	Low Level Activation (0V)
Muting Function	When EMC input, MIC and LINE attenuate 0~30dB
Power Consumption	10~15W
Packing Size	185(H)×520(W)×435(D)mm

RH2816PT

Descriptions & Features

The 16-Zone Paging Selector is able to select up to 16 paging zones, it has a direct microphone input, two remote microphone inputs, two line inputs, internal chime and priority channel mute, can be operated by selecting the zones using the selector pushbuttons, can also be operated remotely using the 16-zone microphone console.

- ※ 16 zone paging selection.
- ※ 16 zone alarm function.
- ※ Volume control.
- ※ Built-in chime, with mute function.
- ※ Each paging zone has LED status indicator.
- ※ One 6.35 MIC input jack, four remote MIC inputs, one line input, and one EMC input.
- ※ 25-pin computer activation bus, and low level alarm activation.

Specifications

MIC. Input	MIC:600 ohms(Ω)5mV,unbalanced
Line Output	10K ohms(Ω)0.775V(0dB)-Unbalanced
THD	<0.01% at 1kHz
Alarm Activation Input	"ALARM IN (CH1 ~ CH16)"
Alarm Activation Output	Low Level Activation (0V)
Muting Function	When EMC input, MIC and LINE attenuate 0~30dB
Power Consumption	10~15W
Packing Size	185(H)×520(W)×435(D)mm

Rear Panel

RH2813B

Descriptions & Features

The 10 Zone Speaker Selector is divided into 2 groups of 5 zones, it features two amplifier inputs A and B which can be connected to a single amplifier to control all 10 speaker zones.

- ※ Supports 10 zone speakers selection.
- ※ 2 group of 5 zones, 70V/100V audio signal.
- ※ 2 audio inputs.
- ※ LED signal level meter.
- ※ 10-position channel selector switch.
- ※ Each channel power handling $\leq 200W$, total handling capacity $\leq 2000W$.

Group A Input	70V/100V audio signal 'CH1~CH5'
Channels Controlled	Total 10 channels
Channel Switch Capacity	500W audio signal
Power Supply	AC 220V $\pm 10\%$ 50-60Hz
Dimension	89(H) \times 483(W) \times 350(D)mm
N.W	6.26kg

RH2813D

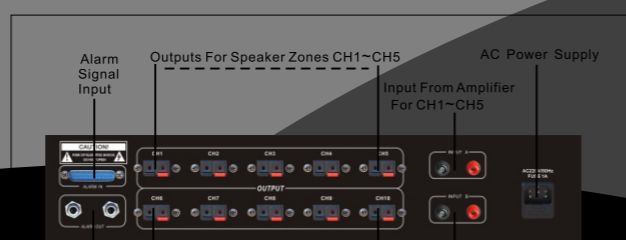

Descriptions & Features

The Speaker Selector RH2813D works with 10 zone paging selector and 10 zone paging microphone for the multi-zone pa system.

- ※ Supports 10 zones for background music, paging, and alarm broadcasting.
- ※ 2 inputs, 10 zone outputs (70V/100V audio signal).
- ※ Supports alarm broadcasting.
- ※ Each zone has LED indicator.
- ※ 25-pin computer activation bus.
- ※ 10 alarm inputs.
- ※ Each channel power handling $\leq 200W$, total handling capacity $\leq 2000W$.

Rear Panel

Group A Input	70V/100V background music
Channels Controlled	10 channels 'CH1~CH10'(the EMC/alarm broadcasting will be activated by the alarm signal)
Switch Capacity	500W audio signal
Alarm Activation Output	(0V) short cut signal
Power Supply	
Dimension	

Specifications

Line Input	70V/100V audio signal
Monitor Speaker	Full range speaker 5W
Power Supply	AC 220V $\pm 10\%$ 50-60Hz
Dimension	89(H) \times 483(W) \times 350(D)mm
N.W	6.34kg

RH2812M

Descriptions & Features

The 10-Zone Monitor Panel RH2812M is designed to provide aural monitoring for the outputs of up to 10 zones audio source with 70 or 100-volt line outputs, it is helpful for pa system in control room to monitor the outside program status.

- ※ 10 zone inputs.
- ※ Built-in speaker 5W/8 Ohm.
- ※ Connecting to the amplifiers to monitor if they are working well.
- ※ Monitors up to 10 speaker zones by using the built-in speaker.
- ※ 5-LED level meter visually indicates the channels signal level.

RH2813AM

Descriptions & Features

The 16-Zone Speaker Selector RH2813AM is able to select up to 16 speaker zones, and can achieve the functions of zone paging and alarm broadcasting in working with 16-zone paging selector & 16-zone remote paging microphone.

- ※ Supports 16 zones for background music, paging, and alarm broadcasting.
- ※ Built-in monitor speaker.
- ※ 4 inputs for background music.
- ※ 4 inputs for alarm broadcasting and paging.
- ※ Each zone has LED indicator.
- ※ 25-pin computer activation bus.

Rear Panel

Specifications

A1 Input	70V/100V, background music "CH1-CH4"
A3 Input	70V/100V, background music "CH9-CH12"
B1 Input	70V/100V, alarm and paging "CH1-CH4"
B3 Input	70V/100V, alarm and paging "CH9-CH12"
Alarm Input	(0V) short-cut(ALARM IN)
Power Cable	(3 \times 1.5 mm ²) \times 1.5m
Power Consumption	20~25W
Dimension	185(H) \times 520(W) \times 435(D)mm

RH2819A

Descriptions & Features

The Alarm Matrix connects between a facility's fire alarm system and public address system, with support for up to 30 zones, any zone that has a fire alarm will force adjacent zones into an emergency situation warning personnel to evacuate.

- ※ 30 shorted signal inputs for fire alarm, 3 groups of 10 channel shorted signal outputs for fire alarm.
- ※ N±4 adjacent zone range.
- ※ Shorted signal to activate power.
- ※ Address setting with decimal system.

Activation Output Level	High level (+5V ~+24V) or low level (0V)
Alarm Activation Level Switch	High level (+5V ~+24V) or low level (0V) is set by switch 'HIGH'/'LOW'
Alarm Activation Output	OUT(1~10), OUT(11~20), OUT(21~30)
Power Cable	(3×0.75mm ²)×1.5m
Power Consumption	15~20W
Packing Size	185(H)×520(W)×435(D)mm
G.W	8.16kg

RH2815E

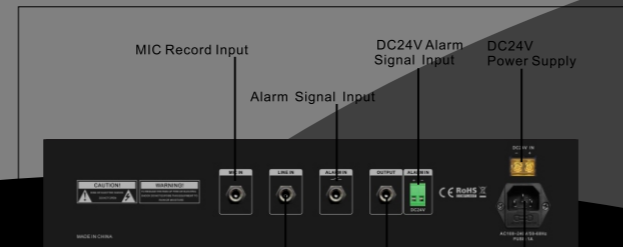

Descriptions & Features

The Alarm Panel is used in a public address system to produce an alarm sound either by a short-circuit signal to trigger auto-alarm or by a manual pushbutton, it can output a built-in siren signal or a user-recorded voice alarm or siren, with the built-in 60-second recording IC, users may record their own voice alarm or siren.

- ※ The alarm panel produces an alarm sound automatically when activated by an external signal or manually by the pushbutton.
- ※ The siren message can be either a built-in siren or a user pre-recorded voice message.
- ※ 60-second digital IC for voice message recording via MIC or LINE input.

Rear Panel

MIC. Input	<5mV, 600 ohms (Ω)
Line Output	>200mV
THD	<0.01% at 1kHz
Record Time	60 minutes
Alarm Activation Level	(0V) short-cut signal
Power Supply	AC
Dimension	

RH2818I

Descriptions & Features

The Telephone Interface can automatically answer an incoming phone call and broadcast the caller's voice over the PA system and even to individual zones, and a microphone input is provided for talking back to the caller.

- ※ The interface can automatically answer an incoming phone call and broadcast the caller's voice over the PA system.
- ※ Automatic or manual mode optional.
- ※ Built-in monitor speaker and volume control.
- ※ Activation output can be used to trigger other equipment remotely.

Line Input	Phone signal
Monitor Speaker	Built-in full range speaker 5W
Power Cable	(3×0.5 mm ²)×1.5m
Power Consumption	5~10W
Packing Size	185(H)×520(W)×435(D)mm
G.W	7.76kg

RH2828S

Descriptions & Features

The Power Sequencer is used to manage a PA system's power requirements so that it may turn on up to 16 system components according to the order that is desired-effectively preventing high powered equipment from overloading the AC mains.

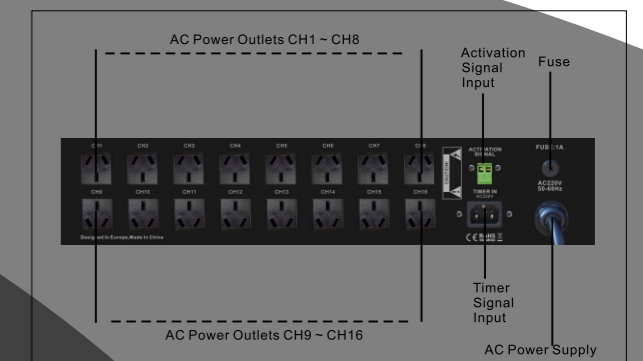

- ※ 16 power up sequence.
- ※ Each channel power handling ≤2kW, total handling capacity ≤4.5kW.
- ※ Power start using shorted signal from program timer to realize timing power output.

Specifications

Total Capacity	Total capacity 4.5KW
Time Interval	0.4S~0.5S
Channels	CH1~CH16
Power Supply	AC 220V ±10% 50-60Hz
Dimension	89(H)×483(W)×350(D)mm
	7.08kg

Rear Panel

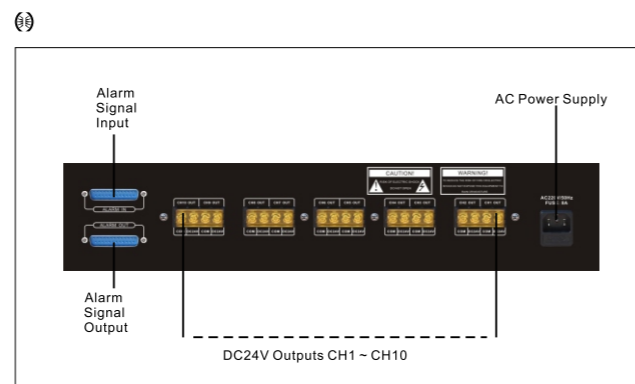

RH28210S

Descriptions & Features

The 24VDC Switch Power Supply is a 10 channels switching power supply for use in a public address system to forcefully insert 24VDC over the system to provide power for volume control override and other emergency equipment, activated by a 10 channels input, the input alarm signals control the 24V power source outputs, thus forcefully cutting over the PA system.

- ※ 10 channels of DC24V outputs.
- ※ 10 alarm signal inputs provided to activate DC power outputs.
- ※ Each channel has LED indicator.
- ※ 25-pin activation input and output bus.

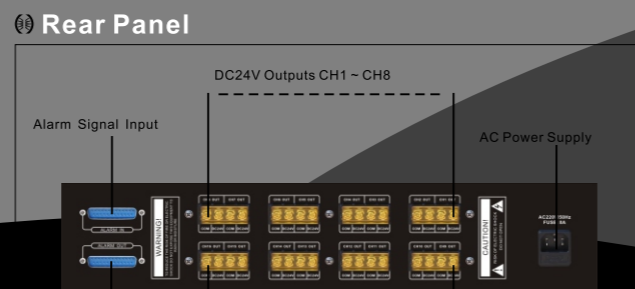

Channels Controlled	10 channels CH1 ~ CH10
Alarm Activation Level	High level +12V or low level 0V, can be set through the switch 'HIGHT'/'LOW' on the rear panel
Power Cable	(3×1.5 mm ²)×1.5m
Power Consumption	20~300W
Packing Size	185(H)×520(W)×435(D)mm
G.W	10.38kg

RH28216S

Descriptions & Features

The 24VDC Switch Power Supply is a 16 channels switching power supply for use in a public address system to forcefully insert 24VDC over the system to provide power for volume control override and other emergency equipment, activated by a 16 channels input, the input alarm signals control the 24V power source outputs, thus forcefully cutting over the PA system.

- ※ 16 channels of DC24V outputs.
- ※ 16 alarm signal inputs provided to activate DC power outputs.
- ※ Each channel has LED indicator.
- ※ 25-pin activation input and output bus.

Channels Controlled	16 channels CH1 ~ CH16
Alarm Activation Level	High level +12V or low level 0V, can be set through the switch 'HIGHT'/'LOW' on the rear panel
Power Cable	(3×1.5 mm ²)×1.5m
Power Consumption	20~300W
Packing Size	185(H)×520(W)×435(D)mm
G.W	10.38kg

RH2821M

Descriptions & Features

The M/S Amplifier Switch monitors up to five main power amplifiers which will be switched automatically to the spare amplifier should any one fails, with five independent channels, it can also be operated manually for power amplifier upgrades and maintenance, each channel has a volume control, manual switch, and status indicator.

- ※ Connect to 5 main amplifiers and 1 spare amplifier.
- ※ Automatic detection of fault units, and the first fault detected unit will be automatically switched to the spare unit, other fault units if later detected will be brought to your attention by the indicators.
- ※ Prompt tone will ring should any main unit fails.
- ※ Indicators have three different indications: Normal, Fault, or Spare.
- ※ Address setting using decimal system.

Main Channels	5 channels 'CH1 - CH5'
Channel Capacity	150V/20A, audio signal
Output Signal	0.775V (0 dB), 10k ohms(Ω), unbalanced (maximun volume)
Input Checking	50mV, cycle time 20mS
Speaker Terminals	SPEAKER OUTPUT (CH1 ~ CH5)
Power Supply	AC 220V ± 10% 50-60Hz
Dimension	89(H)×483(W)×350(D)mm
N.W	6.9kg

RH1001ZH

Descriptions & Features

The RH1001ZH is designed to convert a high 100V audio signal to a line level signal.

No power needed, will be very helpful for the public address audio distribution system, it can make the system connection very easy and flexible.

Ideal for signal transmission over long distances or supplying an auxiliary output from PA amplifiers or from a 100V audio signal source to the units with line input.

And very useful if extending or adding to existing installs as it negates the need to run new cables from existing amplifier or main equipment, simply tag onto the 100V loudspeaker circuit and feed the output into a local amplifier.

Specifications

Channel Number	Two channels
Output Signal	Line level signal
Terminal	RCA(unbalanced) * 2
Dimension	136x80x30mm

Rear Panel

RH2811P

Descriptions & Features

The Pre-amplifier RH2811P has five MIC inputs, three AUX level inputs and two EMC(priority) level inputs. Priority muting is achieved via MIC 1 and EMC for overriding music for paging and emergency alarms. Individual controls are provided for MIC and AUX inputs, bass & treble controls are provided for overall tone control.

- ※ Built-in CHIME and SIREN circuit.
- ※ 10 level indicators.
- ※ Built-in chime, with mute function.
- ※ 4 outputs for four amplifiers.
- ※ 5 MIC inputs, 3 AUX inputs, 2 EMC inputs.
- ※ EMC 1,2 have priority over all inputs except MIC1.
- ※ Individual volume controller for MIC & AUX inputs.
- ※ MASTER volume controller, BASS and TREBLE tone controller.

MIC. Input	600 ohms(Ω)5mV
Line Input	10K ohms(Ω)200mV
Frequency Response	60Hz~15KHz(±3dB)
S/N	>70dB
Power Supply	AC 220V ±10% 50-60Hz
Dimension	89(H)×483(W)×350(D)mm
N.W	5.96kg

RH2881P

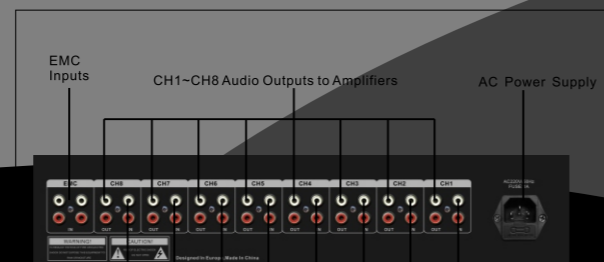

Descriptions & Features

The 8CH Pre-amplifier supports eight individual inputs and outputs, with one microphone input with priority, and two EMC inputs, built-in paging function with pushbutton for paging each zone.

- ※ 8 individual inputs from audio source.
- ※ 8 individual outputs to amplifiers.
- ※ 1 MIC input.
- ※ LED indicator.
- ※ Paging for 8 zones.
- ※ MIC input has priority.
- ※ Individual volume controller.

Rear Panel

MIC. Input	600 ohms(Ω)5mV
Line Input	10K ohms(Ω)200mV
Frequency Response	60Hz~15KHz(±3dB)
S/N	>70dB

RH60MB

Descriptions & Features

This **Usb/Bt Mixing Amplifier** is designed as convenient solution for small to medium PA installations with USB player,Bluetooth receiver in a compact housing. Inputs for all audio source governed by front panel volume controls, and the digital screen displays the working status of playing programmes, which can be controlled by the front panel buttons or the remote control.

- ※ **Rated Power: 60W.**
- ※ **Built-in U disk MP3 player and Bluetooth receiver.**
- ※ 70/100-volt and 4/8 ohms(Ω) output loads.
- ※ SMT circuit boards with highly stable performance.
- ※ Three microphone jacks.
- ※ On the front panel the Mic1 has 6.35mm jack, on the rear panel it has XLR jack supporting 48V phantom power.
- ※ Mic1 has priority over the other inputs.
- ※ High-definition display for the working status of playing programme.
- ※ Individual volume controller for inputs, and master volume controller for all.
- ※ BASS and TREBLE tone controllers. Master volume control.
- ※ Complete protection is provided for output short circuit, overload, high temperature, peak current limiters

Rated Power	60W
USB Music Format	Supported with MP3,WMA,WAV
T.H.D	<1% at 1kHz, 1/3 rated power
Tone Control	BASS:100 Hz (\pm 10 dB) , TREBLE:10k Hz (\pm 10 dB)
Protection	Short circuit, overload, high temperature
Power Supply	AC 220-240V- 50/60Hz
Power Cord	
Carton Size	

RH150MB/RH300MB

Descriptions & Features

The **5-Zone Usb/Bt Mixing Amplifiers** are designed to meet the requirements of medium sized professional public address installations, and designed with overall 70/100-volt and 4/8 ohms(Ω) loads and featured an industry leading 5 zoned 100 volt load solution, 150/300 watts of amplifier power are available, with provided an audio output to 5 different zones within the venue, each zone has its own separate switch on/off manually operated on front panel.

- ※ **Power rates: 150W/300W.**
- ※ **Built-in U disk MP3 player and Bluetooth receiver.**
- ※ **5 Zoned 70V or 100V speaker outputs** with individual switch ON/OFF.
- ※ 70/100-volt and 4/8 ohms(Ω) output loads.
- ※ Five microphone jacks, Mic1/Mic2/Mic3/Mic4 can support 48V phantom power.
- ※ Mic1 has priority over the other inputs.
- ※ High-definition display for the working status of playing programme.
- ※ Built-in Chime and Siren circuitry with push-button and volume control.
- ※ BASS and TREBLE tone controllers. Master volume control.
- ※ Complete protection provided for output short circuit, overload, high temperature.
- ※ Removable rack mounting brackets supplied.

	150W	300W
USB Music Format	Supported with MP3,WMA,WAV	

RH60WIFI

Descriptions & Features

This Wifi/Usb/Bt Mixing Amplifier is designed as convenient solution for small to medium PA installations with USB player,Bluetooth and WiFi receiver supporting wifi connection via the App MUZO,we can enjoy online music or online internet radio including Tunein,Spotify,Tidal etc.

- ※ Built-in WiFi wireless music streaming receiver,Bluetooth receiver and USB player.
- ※ 70/100-volt and 4/8 ohms(Ω) output loads.
- ※ SMT circuit boards with highly stable performance.
- ※ Three microphone input jacks.
- ※ On the front panel the Mic1 has 6.35mm jack,on the rear panel it has XLR jack supporting 48V phantom power.
- ※ Mic1 has priority over the other inputs.
- ※ High-definition display for the working status of playing programme.
- ※ Individual volume controller for inputs,and master volume controller for all.
- ※ BASS and TREBLE tone controllers.
- ※ Protection provided for output short circuit,overload,high temperature,peak current limiters.

Rated Power	60W
WiFi Solution	MUZO Wireless Hi-Fi System
WiFi APP Version	Wi-Fi 8.2.11 b/g/n(AP/STA modes supported)
Music Format	Supported with MP3,WMA,WAV,ACC(ACC+),Apple lossless,ALAC,FLAC,APE
T.H.D	<1% at 1kHz,1/3 rated power
Tone Control	BASS:100 Hz (± 10 dB) , TREBLE:10k Hz (± 10 dB)
Protection	Short circuit,overload,high temperature
Power Supply	
Power Cord	
Carton	

RH120WIFI/RH240WIFI/RH350WIFI

Descriptions & Features

The 5-Zone Wifi/Usb/Bt Mixing Amplifiers are designed as convenient solution for small to medium PA installations with USB player,Bluetooth and WiFi receiver supporting wifi connection via App MUZO,we can enjoy online music or online internet radio including Tunein,Spotify,Tidal etc.

- ※ Built-in WiFi wireless receiver,Bluetooth receiver and USB player.
- ※ 70/100-volt and 4/8 ohms(Ω) output loads.
- ※ SMT circuit boards with highly stable performance.
- ※ Three XLR microphone input jacks supporting 48V Phantom Power.
- ※ Mic1 has priority over the other inputs,and it has one 6.35mm jack on front panel.
- ※ High-definition display for the working status of playing programme.
- ※ BASS and TREBLE tone controllers.
- ※ Protection provided for output short circuit,overload,high temperature, peak current limiters.
- ※ Removable rack mounting brackets supplied.

RH1060MD/RH1120MD

Descriptions & Features

These **Mixing Amplifiers** are designed as convenient solution which accommodates different kinds of audio sources including **USB/MP3-player,Bluetooth-receiver** and a **tuner receiver** supporting **FM/RDS/DAB/DAB+**, providing a solution of **Digital audio broadcasting (DAB+)**, the signals of which are transmitted in-band, on-channel (IBOC). Several stations can be carried within the same frequency spectrum. And with outstanding features including improved sound quality, reduced fading and multipath effects, enhanced immunity to weather, noise, and other interference, and expansion of the listener base by increasing the number of stations that can broadcast within a given frequency band.

- ※ Compatible media:USB,Bluetooth,FM(RDS),DAB+(DAB),Aux In.
- ※ 1 Aux input, 1 Line output.
- ※ Digital Class-D amplifier type with **60W and 120W** available.
- ※ 70/100-volt and 4 to 16 ohms(Ω) output loads.
- ※ Two 6.35mm microphone jacks.
- ※ High-definition display for the working status of playing program.
- ※ Controls:MIC1,MIC2, master volume, remote control.
- ※ BASS and TREBLE tone controllers.
- ※ Individual LED indicator for POWER/SIGNAL/PROTECTION.
- ※ Protections provided for output short circuit,overload,high temperature,peak output level.

Rated Power	60W	120W
Compatible Media	USB,Bluetooth,FM(RDS),DAB+(DAB),Aux in	
Bluetooth Version	5.0 version	
MIC Input	MIC1/MIC2: 600 ohms(Ω) 5-10 mv ,unbalanced	
LINE Output	0.775V (0 dB)	
THD	<0.5% at 1kHz, 1/3 rated power	
Tone	BASS:100 Hz (\pm 10 dB) , TREBLE:12k Hz (\pm 10 dB)

	10.50 kgs	13.30 kgs

RH-MD120WZ/RH-MD240WZ/RH-MD350WZ

Descriptions & Features

These **Mixing Amplifiers** are designed as convenient solution which accommodates different kinds of audio sources including **USB/MP3-player,Bluetooth-receiver** and a **tuner receiver** supporting **FM(RDS)/DAB+(DAB)**.

Built-in CHIME and SIREN circuitry with individual control on front panel.120/240/350 watts of amplifier power are available. Featured an industry leading **5 zoned 70 or 100 volt load solution** provides an audio output to 5 different zones within the venue,each zone has its own separate switch on/off manually operated on front panel.

- ※ Compatible media:USB,Bluetooth,FM(RDS),DAB+(DAB),Aux In.
- ※ 70/100-volt and 4/8 ohms(Ω) output loads.
- ※ **120W/240W/350W** power outputs available.
- ※ 2 groups of Aux inputs, 1 group of Aux outputs.
- ※ 5 zoned 70V or 100V speaker outputs with separate switch ON/OFF.
- ※ Five microphone jacks, Mic1/Mic2/Mic3/Mic4 can support 48V Phantom Power.
- ※ Mic 1 has priority over the other inputs.
- ※ High-definition display for the working status of playing program.
- ※ Built-in Chime and Siren circuitry with push-button and volume control.
- ※ BASS and TREBLE tone controllers.
- ※ Individual and master volume control.
- ※ LED indicators for POWER/SIGNAL/PROTECTION.
- ※ Complete protection provided for output short circuit,overload,high temperature.
- ※ Removable rack mounting brackets supplied.

Rated Power	120W	240W	350W
Compatible Media	USB,Bluetooth,FM(RDS),DAB+(DAB),Aux in		
Bluetooth Version	5.0 version		
MIC Input	MIC1/MIC2/MIC3/MIC4:with both XLR & 6.35mm jack; MIC5:only with XLR jack		
Frequency Response	60Hz ~ 22kHz (\pm 3 dB)		
S/N	\geq 75dB		
Protection	Short circuit,overload,high temperature		
Power Supply	AC 220-240V- 50/60Hz

RH-6120WZ/RH-6240WZ/RH-6350WZ

Remote microphone RH06MC is optional

Descriptions & Features

These Mixing Amplifiers are designed as convenient solution which accommodates different kinds of audio sources including USB/MP3-player,Bluetooth-receiver and a tuner receiver supporting FM(RDS)/DAB+(DAB).

Featured an industry leading 6 zoned 70 or 100 volt load solution provides an audio output to 6 different zones within the venue,each zone has individual volume.

And by being connected with the remote paging microphone RH06MC,the users can make voice announcement over the 6 zones with several paging models: individual zone,combined zones and all zones.

- ※ Compatible media:USB,Bluetooth,FM(RDS),DAB+(DAB),Aux In.
- ※ 70/100-volt and 4/8-ohms(Ω) output loads.
- ※ 6 zoned 70V or 100V speaker outputs.
- ※ Separate tone control: Bass & Treble.
- ※ One master volume control.
- ※ Three microphone jacks can receive both 6.35mm & XLR mm microphone plug,also can support 48V Phantom Power with switch On/Off.
- ※ One Rs485 interface for connecting remote microphone.
- ※ Three AUX inputs with individual volume control.
- ※ One TEL line input with volume control.
- ※ One ALARM input.
- ※ One DC24V EMC. signal input.
- ※ One LINE output.
- ※ Built-in CHIME and SIREN generator with volume control.
- ※ Rack mounting brackets are supplied.
- ※ Power supply: AC230V 50Hz, and DC24V.
- ※ LED indicators for POWER/SIGNAL/PROTECTION.
- ※ Complete protection provided for output short circuit, overload, high temperature.

Rated Power	120W	240W	350W
Compatible Media	USB,Bluetooth,FM(RDS),DAB+(DAB),Aux in		
Bluetooth Version			
MIC Input	MIC1/MIC2/MIC3 (support 6.35mm and XLR plug)		
Frequency Response	60Hz ~ 22kHz (± 3 dB)		
S/N	≥75dB		
Protection	Short circuit,overload,high temperature		
Power Supply			
Power Cord			

RH2813RF

(Fm/Am)

Descriptions & Features

The Digital Tuner RH2813RF is an ideal as a background music source in a sound system of all sizes.It incorporates a digital PLL synthesized tuner for precise reception of AM and FM signals.

- ※ Manual and automatic tuning with remote control.
- ※ Attractive 1U rack mount case.
- ※ Provides the full range of FM frequency from 87.5 to 108MHz, the AM frequency range is from 522 to 1620KHz.
- ※ Tuning is accomplished by pushbutton with frequency readout appearing on a backlit LCD display panel.
- ※ Preset stations to memory by storing AM/FM stations in advance, user can easily recall a broadcast station by designating the corresponding preset memory channel.
- ※ Push-release connectors are provided for an external AM loop antenna and FM dipole antennas are included with this unit.

Media Source	FM, AM
Audio Output	<500mV,10K ohms(Ω) . unbalanced
Distortion	
Frequency Response	20Hz~18KHz
Power Supply	AC 220V ± 10% 50-60Hz
Dimension	51(H)×483(W)×250(D)mm
Gross Weight	3.1kg

RH650FRD

Descriptions & Features

The Digital Tuner RH650FRD is an ideal as a background music source in a sound system of all sizes by providing broadcast program material, it incorporates a digital module for precise reception of AM,FM,RDS,DAB and DAB+ signals.

Also this player enjoys a USB port on front panel allowing to play USB disk, also an AUX input allowing to connect an additional audio source such as cd player,computer,mobile phone etc.

Moreover built-in Bluetooth receiver supporting connectivity with mobile device.

User can operate this device by pushing the buttons on its front panel or using its remote control.

- ※ Manual and automatic tuning with remote control.
- ※ Incorporates a digital module for precise reception of AM,FM,RDS,DAB and DAB+ signals.
- ※ Enjoys a USB port on front panel allowing to play USB disk.
- ※ An AUX input allowing to connect additional audio source.
- ※ Bluetooth connectivity.
- ※ 1U design for installation in standard equipment rack or on desk.

Specifications

Compatible Media	USB,Bluetooth,FM(RDS),DAB+(DAB),AM,Aux in
Bluetooth Version	5.0 version
	DAB+(DAB): 168.00 - 240.00 MHz
Frequency Response	20 Hz - 20 KHz (±0.5 dB)
T.H.D	Less than 0.005%
	Output level: 2 Vrms (Max. 10 dBu) at 10 kΩ/kohms load
Balanced Out L/R (XLR)	Output level: 8.23 dBu (Max. 24 dBu) at 600Ω/ohms load
Power Consumption	30W (0.5W standby)
	520x355x117mm
	3.50kg

Rear Panel

RH2812CD (Cd/Dvd/Usb)

Descriptions & Features

The USB/CD/DVD Player RH2812CD is an ideal as a background music source in a sound system of all sizes. With original splendid fluorescence dynamic screen on aluminum panel, this player provides you super decoding solution and strong Disc correction function.

- ※ With remote control.
- ※ Full functional infra-red leisurely remote controlling operation.
- ※ Built-in MP3 player with a USB slot for connecting external U Disk.
- ※ VIDEO output: 1VP-P.
- ※ AUDIO output: 1.5V.
- ※ With 1.5U height.
- ※ Supports more formats: DVD, VCD, CD, HDCD, DIVX, SVCK, MPEG4, Np3, WMA, CDR/RW format disc and auto play function.

Compatible Media	CD, DVD, USB
Audio Output	0.775V±0.2V (Output Impedance 600 Ohm)
Distortion	<-60dB
Frequency Response	20Hz~18KHz
Power Supply	AC 220V ±10% 50-60Hz
Dimension	51(H)×483(W)×250(D)mm
Gross Weight	3.8kg

RH620CUB (Cd/Usb/Bt/Aux)

Descriptions & Features

This CD Player RH620CUB supports USB and Bluetooth connectivity, also includes an AUX input for local additional audio source, this highly versatile yet affordable media player is perfect for retail, education, hotel applications and any other pa commercial audio system. The drive will load the CD automatically when it is inserted into this slot. On the rear side, the outputs are provided with RCA & XLR connection interface. This player can be operated through the front panel pushbuttons, also can be done through its remote control. 1U height design for installation in standard equipment rack or on desk.

- ※ Remote control.
- ※ Automatic CD drive.
- ※ USB and Bluetooth connectivity.
- ※ An AUX input.
- ※ Standard 1U height.

Rear Panel

Compatible Media	CD, USB, Bluetooth, Aux in
Bluetooth Version	5.0 version
S/N Ratio	More than 105 dB
Unbalanced Out L/R (RCA)	Load impedance: Over 10 kΩ/kohms
	Load impedance: Over 600Ω/ohms
Power Supply	
Product Size	
Net Wt	

RH680CAS Cd/Usb/Bt/Am/Fm/Rds/Dab+

Descriptions & Features

This Media Player RH680CAS is an All-In-One audio source device which accommodates different kinds of audio sources into one single device with two channels:

Left side media combines a CD-Player, USB/MP3-player and Bluetooth-receiver. Right side media combines USB/MP3-player, Bluetooth-receiver and a tuner receiver supporting AM/FM(RDS)/DAB+(DAB).

This player can be operated through the front panel pushbuttons, also can be done through its remote control.

1U height design for installation in standard equipment rack or on desk.

- ※ Channel A combines a CD-Player, USB/MP3-player and Bluetooth-receiver.
- ※ Channel B combines USB/MP3-player, Bluetooth-receiver and a tuner receiver supporting FM/AM/RDS/DAB/DAB+.
- ※ Two groups of stereo outputs provided with RCA & XLR connection interface.
- ※ With remote control.
- ※ 1U design for installation in standard equipment rack or on desk.

Compatible media	Channel A: CD, USB, Bluetooth Channel B: USB, Bluetooth, FM(RDS), DAB+(DAB), AM
Bluetooth version	5.0 version
Frequency response	20 Hz - 20 KHz (±0.5 dB)
T.H.D	Less than 0.005%
Balanced out L/R	XLR terminal x 2 (1:GND, 2:Hot, 3:Cold) Load impedance: Over 600Ω/ohms Output level: 8.23 dBu (Max. 24 dBu) at 600Ω/ohms load
Power consumption	30W (0.5W standby)
Carton size	520x355x117mm
Gross weight	4.10kg

RH350URP

Descriptions & Features

The Usb Recorder & Player RH350URP is designed with audio recorder, the recording file will be created in WAV format and saved in an external U disk connected with this unit through USB port on the front panel.

This unit can also be used as an USB player to play the MP3, WMA and WAV files. Built-in FM tuner with receiving frequency range 87.5 MHz~108 MHZ.

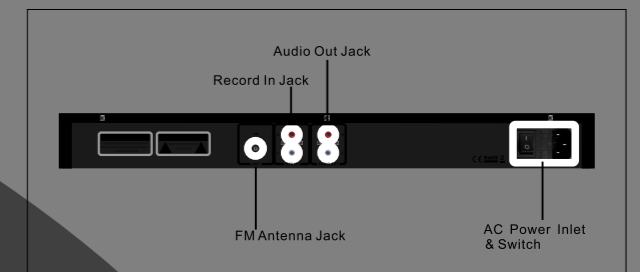

Built-in Bluetooth receiver allowing you to connect with a mobile device. All these features make this unit be perfect for a variety of occasions where the recording and playing are required, such as class, lectures or meetings etc.

- ※ Supports voice recording.
- ※ Works as a USB disk player.
- ※ Built-in FM tuner.
- ※ Features Bluetooth connectivity.
- ※ Remote control.
- ※ Standard 1U height.

Specifications

Compatible Media	USB, Bluetooth, FM
Bluetooth Version	4.2 version
S/N Ratio	More than 105 dB
Record Input	RCA (R&L)
Power Supply	AC 100-240V 50/60 Hz
Product Size	372x267x49mm
	3.30kg

Rear Panel

MP3 Program Player

RH2805M

TIMING USB FM

Descriptions & Features

The MP3 Program Player RH2805M is a kind of timing player of the MP3 program timing platform and integrating the playing of program and the timing control of the playing of the program from U disk.
Users can play MP3 from U disk or FM radio on a regular interval. A timer with 8 editable timing points cycling by a week, up to 100 editable.
Timing points for 1 day and power-off information memory of timing points.
Edit timing points on a computer and copy edited timing points from computer to built-in memory through USB interface. Suitable for any public places where the automatic timing tasks are required with sound remind such as school bell, shopping market timing announcement, company interval bell etc.

- ※ Built-in FM tuner.
- ※ Built-in local monitor speaker.
- ※ Built-in MP3 player with USB port.
- ※ Built-in 4G flash memory for uploading audio source.
- ※ With one microphone input for making announcement.
- ※ A featured timer with editable points for specific timing tasks.
- ※ 4CH AC power output sockets can be controlled by timing points.
- ※ 4CH 100V amplified signal inputs, 4 pairs of zone speaker output terminals.

Line Input	10K ohms(Ω) 330mV, unbalanced
Line Output	10K ohms(Ω) 500mV, unbalanced
Extra AC Power Outputs	Two AC power outputs
Monitor Speaker	Full range speaker 5W
Frequency Response	20Hz~18KHz
Power Supply	AC 220V ±10% 50-60Hz
Dimension	89(H)×483(W)×350(D)mm
N.W	6.42kg

Paging Microphone with Chime

RH300MC/RH301MC

RH300MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Built-in 2-tone chime unit.
- ※ Effective control of feedback, reduced ambient handling noise, and low sensitivity to breath and popping sounds.
- ※ Features a foam-mesh filter.
- ※ Table stand with on/off switch.

Frequency Response	40Hz~16KHz
Polar Pattern	Cardioid
Sensitivity	-38dB ±2
Sound Pick-up Distance	40cm
Cable Length	10m
Base Dimension(W*D*H)	126*150*39mm

RH301MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Built-in

Frequency Response	40Hz~16KHz
--------------------	------------

48V Phantom Power Paging Microphone

RH302MC/RH303MC/RH304MC/RH305MC

RH302MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Supports connection with +48V Phantom Power.
- ※ Effective control of feedback, reduced ambient handling noise, and low sensitivity to breath and popping sounds.
- ※ Features a foam-mesh filter.
- ※ Table stand with on/off switch.

Specifications

Frequency Response	40Hz~16KHz
Polar Pattern	Cardioid
Sensitivity	-40dB ±2
Sound Pick-up Distance	45cm
Cable Length	8m
Base Dimension(W*D*H)	114*140*37mm

RH303MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Supports connection with +48V Phantom Power.
- ※ Effective control of feedback, reduced ambient handling noise, and low sensitivity to breath and popping sounds.
- ※ Features a foam-mesh filter.
- ※ Table stand with on/off switch.

Frequency Response	30Hz~20KHz
Polar Pattern	Cardioid
Sensitivity	-42dB ±2
Sound Pick-up Distance	45cm
Cable Length	8m
Base Dimension(W*D*H)	114*168*57mm

RH304MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Supports connection with +48V Phantom Power.
- ※ Effective control of feedback, reduced ambient handling noise, and low sensitivity to breath and popping sounds.
- ※ Features a foam-mesh filter.
- ※ Table stand with on/off switch.

Frequency Response	40Hz~16kHz
Polar Pattern	Super Cardioid
Sensitivity	-38dB ±2
Sound Pick-up Distance	45cm
Cable Length	8m
Base Dimension(W*D*H)	130*145*40mm

RH305MC

Descriptions & Features

This is a compact desktop paging microphone with goose-neck positioning flexibility for sound reinforcement applications, ideal for voice announcement system.

- ※ Supports connection with +48V Phantom Power.
- ※ Effective control of feedback, reduced ambient handling noise, and low sensitivity to breath and popping sounds.
- ※ Features a foam-mesh filter.
- ※ Table stand with on/off switch.

Specifications

Frequency Response	20Hz~20KHz
Polar Pattern	Super Cardioid
Sensitivity	-40dB ±2
Sound Pick-up Distance	45cm
Cable Length	10m
Base Dimension(W*D*H)	100*144*38mm

RH331U

Descriptions & Features

- ※ Using UHF640-840MHz band to avert interfering frequency.
- ※ All using quartz crystal oscillating circuits so the frequency is very steady.
- ※ Special design companding circuit, strongly improve S/N ratio.
- ※ Multilevel quiet control circuit, to avoid interference signal from outside open the mute system.
- ※ Using excellent dynamic cardioid direct cartridge, the timbre bright and clear.
- ※ All ready output and input socket, it will be more convenience to connect every equipment.

Frequency Range	UHF640~840MHZ
Dynamic Range	>95dB
Frequency Response	50Hz~18KHZ(±3dB)
Power Requirement	DC15~18V
S/N	>95dB
ACI	>80dB
Measurement	480X200X50mm
RF Power	+10dBm
Frequency Deviation	±40KHz

Indoor Column Speaker

RH-CS62/RH-CS63/RH-CS64

Descriptions

These Column Speakers produce good clear sound and acoustical clarity for background music and paging, suitable for indoor applications such as hotels, stations, offices, restaurants, etc.

The wooden enclosure and fabric grille are of grey color, easy and secure wall mount through the mounting hook.

Rated Power	10W/20W	15W/30W	20W/40W
Frequency Response	130Hz-15KHz	130Hz-15KHz	130Hz-15KHz
Dimension	360*160*115mm	485*160*115mm	610*160*115mm
Material	Wood enclosure/fabric mesh		
Speaker Driver	4**2	4**3	4**4

Full-Weather Column Speaker

RH-CS51/RH-CS52/RH-CS53/RH-CS54

Descriptions

These Full-weather Column Speakers which produce good clear sound and acoustical clarity for background music and paging, suitable for indoor and outdoor applications such as stations, gardens, swimming pools, stadiums, and tennis courts, etc. Even in extreme weather conditions, the all metal extruded aluminum alloy enclosure with cast aluminium top and bottom plates are fully dust and weatherproof, IP65 rated.

Easy and secure wall mount installation indoor and outdoor area through the supplied metal mounting brackets.

Rated Power	5W/10W	10W/20W	15W/30W	20W/40W

Wall Mount Speaker

RH-MS15 Series

Descriptions

The RH-MS15 Series Speakers are designed with woofer and tweeter, the woofer is constructed from polypropylene and has a rubber surround, the directional tweeter has a ferrofluid cooled silk dome.

These wall mounting speakers utilize ABS enclosure and a sturdy metal grille, suitable for free standing or wall mounting via adjustable fixing bracket, its trapezoidal design allows for the enclosures to be mounted neatly into corners, making them ideal for most applications of high-voltage audio distribution systems.

Built-in step-down transformers to simplify impedance calculations and to minimize power loss over the speaker cables, are most appropriate for high-voltage audio distribution systems. Available in white or black finish, and U shaped stainless and rotatable mounting bracket is supplied.

Specifications

Rated Power	2.5/5/10/20W	3.75/7.5/15/30W	5/10/20/40W
Frequency Response	100Hz-20KHz	85Hz-20KHz	70Hz-20KHz
Dimension	215*170*150 mm	242*182*162mm	284*215*190mm

Full-Weather Wall Mount Speaker

RH-MS820/RH-MS860

RH-MS820

RH-MS860

Descriptions

These Waterproof Wall Mount Speakers are designed with woofer and tweeter, the woofer is constructed from polypropylene and has a rubber surround, the directional tweeter has a ferrofluid cooled silk dome.

These speakers employ waterproof speaker drivers, robust HIPS cabinet and alloy bracket, feature water resistant IP55 level. A rear selectable knob allows you to switch among 8 ohm, 70 V and 100 V inputs, and a length of connecting cable is connected to the speaker for receive the audio signal from the amplifier.

These sophisticated speakers RH-MS820 or RH-MS860 can realize high-quality speech reproduction, ideally suitable for indoor and outdoor applications such as theme parks, swimming pools, shopping malls, conference room and other presentation.

Specifications

Ceiling Speaker

RH-T13/RH-T64/RH-T21

RH-T13

RH-T64

RH-T21

Descriptions

These Ceiling Speakers can deliver incredible stereo sound to any room or commercial applications, from speakers you can barely see by being installed directly overhead, without having to sacrifice any wall, floor, or shelf space.

Built-in step-down transformer to simplify impedance calculations and to minimize power loss over the speaker cables, are most appropriate for high-voltage audio distribution systems.

Easy to install, requiring only that you cut a hole, feed the wires through, and simply drop the speaker by letting the spring clamps seize the ceiling with no extra assembly or mess.

These speakers are ideally suited for installation in areas for the sound reproduction of reading announcements, declaring states of emergency, and playing background music such as shopping malls, restaurants, metro stations, hotels, coffee bars etc.

Descriptions & Features

The RH-AUDIO Bluetooth Active Ceiling Speakers are designed with digital Class D amplifier, and built-in Bluetooth receiver. It is an ideal economy choice for industrial and commercial applications in hotels, shops, home rooms and where background music is needed.

※ Built-in digital Class D amplifier with three options:

Model RH31BL: built-in 1CH amplifier 1*10W

Model RH32BL: built-in 2CH amplifier 2*10W

Model RH34BL: built-in 4CH amplifier 4*10W

※ Built-in Bluetooth for wireless music streaming – works with almost all Bluetooth devices (iphones, Androids, smart phones, ipads, tablets, etc).

※ Support for Bluetooth protocols: HFPV1.5, A2DPV1.2, AVRCPV1.4, HSP1.2, GAVDP1.2, IOP

※ Power supply with AC adapter.

※ Full-range 6" dual-cone dynamic speaker driver.

※ Frame-mounted spring-loaded clamps provide secure, low-noise connections and easy installation.

※ Attractive color ABS resin finish with white grille suits any decor.

KD-L01

Descriptions

Durable and Stylish Design

KD-L01 is designed with full aluminum alloy housing, built-in digital Class-D amplifier with RMS power output 2x20W, ideal to be used as TV home theater speakers, computer speakers, stereo bookshelf speakers etc.

Digital & Analog Connections

Optical and 3.5mm audio connections are available on the back allows you to connect to TV, Projector, CD Player, turn table, computers, laptop, MP3, etc.

Wireless Streaming

Built-in Bluetooth V5.0 receiver streams music wirelessly from your phone/iPad. External Bluetooth antenna on the back makes the transmission lossless with up to 65 feet connecting distance.

Outstanding Sound Quality

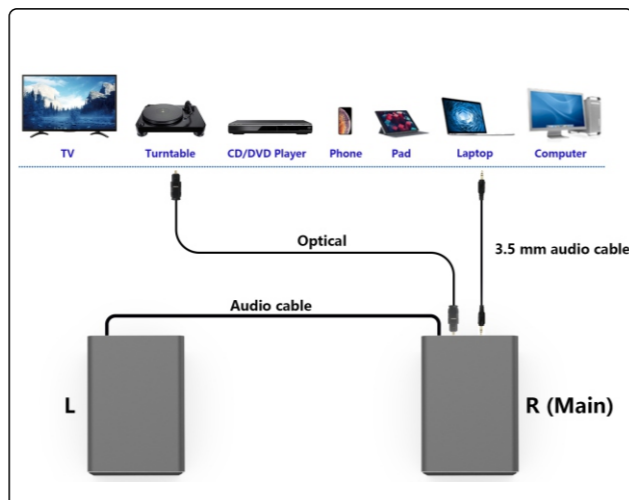

Each speaker is configured with separate bass unit and a dome-silk tweeter unit. Latest DSP sound optimization technology guarantees HiFi and rich sound quality.

Easy Operations

One-key shift between 3 EQ options: Music/Movie/Game. Easy operation by the remote control. Adjust the equalizer manually through the bass and treble knobs on the rear panel.

Features

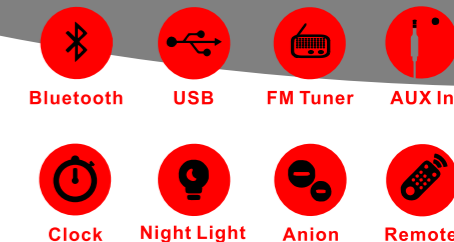

- Media sources : Bluetooth / Optical / AUX
- Adapts Qualcomm Bluetooth 5.0 chip
- Stereo sound system with "R" active and "L" passive
- 3" woofer and 1" dome-silk tweeter
- Built-in class-D amplifier
- DSP sound optimization

Specifications

Model: KD-L01
Adapter Input: 100~240V, 50/60 Hz
Adapter Output: 24V 4A
RMS: 2 x 20 W
Resistance: 8 ohm
Frequency Response: 45Hz-20KHz (±3 dB)
THD: 0.5%
S/N: 85 dB
Material: Aluminum
BT Version: 5.0
Dimension (each): 100 x 100 x 160 mm
Packing Size: 360 x 210 x 220 mm
Net weight: 3.5Kg

KD-S01

Features

6 In 1 Function:

1) Bluetooth HiFi Speaker, 2) Unique Anion technology, 3) Adjustable Night Light, 4) Mini Home Audio Boombox, 5) USB Flash Driver Player, 6) AUX Input Output. It offers you the all convenience by modern technology, you can play your favorite music in home/studio/yoga/dancing room/party etc.

Time and Clock:

This speaker can display time and can set clock alarm, you can clearly know time, and no worry about being late.
